HD-SC2 **STAR CHOICE**

HD-SL5 **DIRECTV**

When All You Want Is Everything.

When it comes to High-Definition programming, you have choices. The MotoSAT™ HD Universal Mount allows you to choose the programming platform that is right for you. Whether you subscribe to DirecTV™, Dish Network™, Star Choice™, or Bell TV. All you have to do is choose:

- >> HD-SL5 for DirecTV's Slim Line 5-satellite system (99°, 101°, 103°, 110° and 119°.)
- >> HD-DP3 for Dish Network's 3-satellite system (110°, 119° and 129°.)
- >> HD-SC2 for Star Choice's 2-satellite system (107.3° and 111.1°.)
- >> HD-DP3 for Bell TV's 2-satellite system (91° and 82°.)

With the simple push of a single button, the MotoSAT™ HD Universal Mount will align itself on **all** of your provider's HD satellites at the same time! The HD Universal Mount accesses all platform-specific satellites simultaneously. Its robust design allows for pinpoint accuracy and stability, even in harsh environments. So choose the system that best suits your needs, and **JOIN THE HIGH-DEFINITION REVOLUTION!**

Now simply choose your programming provider!
